Dear Mr.Brickert:

Responding to your note of January 8th, I am sending you a copy of our Journal of Numismatics, Volume No.48, in which Mr.Wood's article appeared. The title as advertised in "The Numismatist" was simply the article which appears in this volume,bound up separately. If you would prefer to have this bound, please so advise me and we will have such a copy prepared for you. If, instead of that, however, you prefer to keep the entire Volume No. 48, you may take that course, and unless I hear from you to the contrary, I shall assume that this is what you wish done. If this is not satisfactory, you may use the copy you now have until the substitute is received.

Trusting this will be satisfactory,

Very truly yours,

Secretary.
